

LOIRE

LOIRE

WHERE DESIGN MEETS DESIRE

At Loire, we don't just create bathroom accessories - we craft experiences. Inspired by timeless design, engineered with precision, and curated for every mood, Loire redefines how a bathroom feels. From the elegant touch of a faucet to the bold presence of a mirror, each product in our collection is a masterpiece - blending aesthetics with function, and luxury with everyday ease.

The **Art** of Bathing,
Perfected.

At Loire, we believe that every product you touch should inspire confidence and comfort. Our collection of bathroom essentials is crafted not just to serve a purpose, but to create an atmosphere — one of calm, elegance, and everyday indulgence.

Timeless. Thoughtful.
Truly Yours.

LOIRE

Choose Loire - and transform your bathroom into a space that speaks your style, supports your lifestyle, and stands the test of time.

The Signature of
Luxury

STEP IN TO LOIRE

Technology, aesthetics and performance: Loire offers high-quality faucets, designed to last over time and to add value to every project. With the aesthetics, the company has taken an innovative and evolving

features, thanks to its creativity, design and new technologies, which differentiate its collections from others.

The Brand Value

Design / Aesthetics

Every creation is designed to offer maximum comfort while carrying a clear and recognisable design style. Guided by a strong belief in creativity, design, and

innovation, the company has continued to evolve over time, always bringing fresh ideas and dynamic solutions. This approach makes it possible to anticipate market

needs and future trends, delivering products that combine outstanding design with advanced technology.

Green Products

Loire is constantly working to improve the way it operates, with the goal of using fewer resources, materials, and energy. Each project is approached with the full life cycle

in mind — from design and development to delivery and eventual disposal. Sustainability is at the core of this vision: Loire uses self-produced energy and is

dedicated to creating products that are safe for people and gentle on the environment

Quality

The finest materials and advanced technologies ensure durability and consistent performance in everyday use. Loire adopts a comprehensive approach to quality, built on continuous technological

innovation, the use of advanced processes, and the careful selection of superior materials. Rigorous inspections are conducted at every stage to guarantee compliance with the most demanding

international standards. The 10-year warranty further reflects this philosophy, demonstrating an uncompromising commitment to total quality.

Lux Deck Collection

Loire

Lux deck is an iconic and symbolic water Tap that brings the excitement of water flowing freely and unrestricted by pipelines back to the bathroom of your home. Imitated around the world, it is still one of our best-selling collections.

#ChangePerspective

Loire's signature lux deck faucet goes beyond mere functionality. Encapsulating the aesthetics refined by iconic artistic traditions of the

world, Loire faucets are beauty captured in metal. Once seen, never forgotten.

An artful fusion of styles. Loire luxdeck is extravagant, sensuous, and strikingly original. Crafted with sculptural precision, the mixer handles feature large openings for a delicate overall impression. Whether in minimalist or eclectic settings, Loire luxdeck makes a personal statement in any bathroom.

Rivulet Collection

Loire

Italian
Genius

Our rivulet series symbolizes modernity in the faucet industry. Its designs are stylish and timeless, rivulet provides impetus and inspiration architects and interior designers all over the world. Along with other

innovations from loire, the rivulet series has been influential in shaping architectural history and making bathrooms, spas and kitchens what they are today no longer just functional spaces, but luxurious environments.

This twisted faucet puts an artful twist on how water flows from the tap. The sculptural shape and wide spout create a spa-like look with a hint of industrial chic.

Venezia Collection

Loire

The result of a design based on usage habits, ergonomics and efficiency, our venezia range of mixers expands with customizable knobs collection, a collection of handles in brass, marble and crystal. The

wide range of finishes adds a glamorous touch to the bathroom thanks to the plays of colour and reflections created by the crystal. Colours range from white carrara and black portoro to the more classic

chrome, bronze, gold and ivory white, further expanding the compositional possibilities of this series.

Venezia collection is a simple system composed of two parts: handle and cover that can be easily put together to create a flexible product to suit all tastes while following trends and styles.

#showerwellness

Loire spa solutions with signature treatments with Loire spa solutions, you can experience water applications at home at any time – in extreme comfort and to great effect. We got

together with health and wellness experts to develop our so-called signature treatments: perfectly coordinated water programs, selected at the touch of a button for you to enjoy.

Harmony Shower Collection

Loire

The force of an ample water jet gives the sensation of immersion in an experience that evokes pleasant summer rain. The possibility of playing with different quantities of water and the types of jets

allow experimentation with different sensations at the same time; different water jet sprays, soft and delicate raining jets and the cascade blade that converge in the centre for a vitalising result. Harmonia is

also equipped with 8 different led colours that enhance the emotions of the water with those of chromotherapy, creating a suggestive atmosphere and increasing the sensation of wellness.

Chromotherapy, water jet,
mini-showers, designed for
the best comfort.

Silk + Intense Flow

Finishes :

The different jets of the wellness division change the shower concept. Vigorous jets available in different ways: soft silk flow rain under which you allow yourself to be transported by your emotions; the intense jet, pleasant and giving a regenerative sensation, just like a real spa; vigorous soft rain under which you can close your eyes and enjoy a natural rain. Different jets, different sounds...the harmony of bathroom surroundings that reawakens the senses and offers a sensation of wellness.

Ceiling Showers
Collection

Water gives new energy to you. The vigour of the jets reawaken us from that initial numbness. The flow of water increases and decreases to suit you with a simple gesture. At times gentle, other times energetic. The body regenerates to make us feel alive.

Various stylistic interpretations and customisations are possible with the showerhead capable of creating an evocative water path in the bathroom, thanks to different types of jets: silk, luminar, multi-jet. Moreover, it is extraordinarily easy to install.

Comfort
& Functionality

Every drop carries a rhythm that awakens the senses, soothing the mind and invigorating the body. With effortless control, the flow adapts to your mood, sometimes calm and serene, sometimes powerful and revitalizing. A simple touch transforms your shower into a ritual of renewal, where elegance meets vitality and the body finds its balance once again.

Air - Infused

Experience a gentle pour
of air-infused droplets,
crafted to awaken the senses
and dissolve the weight
of the day.

Air - Infused Collection

Loire

Natural rain is the most original yet
sensuous form of showering. To bring the
experience of feeling natural rain to the
home bathroom, loire studied the
properties of water with air shower drops in

great detail. Their special secret: they fall as
light as a feather, almost weightlessly,
bursting softly and directly onto the body.

Pulse Flow

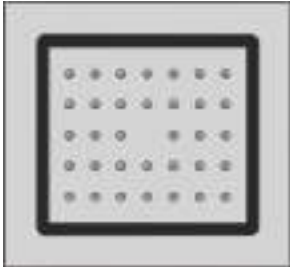

We develop products for impressive water experiences with reduced resource consumption. So you don't have to choose between well-being and sustainability.

With the rain shower, water rains down from above and envelops your body in large, glistening drops. The massage jet gives a therapeutic massage to the neck and shoulders. Water hits the skin at different pressure intensities, resulting in increased blood circulation in these parts of the body. BODY SHOWERS not only helps ease tenseness in muscles, it can also be used to specifically stimulate pressure points and meridians.

Expression of an advanced engineering development, Skinny is able to add value to any kitchen and to entirely fit in with every style, giving a perfect balance of modern and ergonomic beauty. The mixer is

characterized by a slim body that gracefully soars, connecting smoothly the diameter of the spout with the integrated base. The morphing of its surface is asymmetrical, designing a flat shape that allows the fluid

insertion of the cylinder and makes the mixer look thin and constant for its whole height.

GOOD REASONS FOR CHOOSING LOIRE

International Designs

We work with international network for designs. We combine ideas with our own expertise – this is how we create diverse designs and innovative approaches which

are at the same time individual, stylish and exclusive.

Highest Standards

En even in the age of high-tech and automation, when it comes to products requiring high skill levels in terms of design and function, quality is often still dependent

on human craftsmanship. This is why a considerable amount of the labour required to ensure our high loire standards is still done by hand. This applies to our ceramic

production and also to every other production area at loire.

Technology And Well-being

In the development of our products, we place great value on continuous improvement in the areas of well-being, comfort and hygiene. For this, we

concentrate on a high level of technical expertise combined with excellent craftsmanship.

Artistic Basin Collection

Loire

The extraordinary shape of the basins series follows the organic silhouette bloom, unfolding an almost sculptural and delicate character. Expressive details and timeless

design in combination with first-class workmanship and high-quality materials satisfy even the highest demands
